

PIE Models 322-1 & 422 Compared to Altek*

Thermocouple Calibrators

Advantages of the PIE Model 322-1 over the Altek* Model 322-1

- **Automatic stepping**
- **Larger display with backlight**
Easy viewing in dark locations
- **More resistant to accidental damage**
Rubber boot and stronger switches
- **Separate battery compartment**
No more removing housing with screwdriver to replace batteries. Calibration seals remain intact.
- **Easily change thermocouple types**
Reconfigure without resetting calibrator

Do you have T/C types other than J, K, T & E? Check out the PIE 422!

PIE Model 422 Automated T/C Calibrator for 14 T/C Types

Advantages of the PIE Model 422 over the Altek* Model 422

- **Automatic stepping**
- **Larger display with backlight**
Easy viewing in dark locations
- **More resistant to accidental damage**
Rubber boot and stronger switches
- **Separate battery compartment**
No more removing housing with screwdriver to replace batteries. Calibration seals remain intact.
- **Easily change thermocouple types**
Reconfigure without resetting calibrator
- **Verify cold junction temperature & output**
Secondary display of compensated millivolt setting and cold junction temperature

* PIE Calibrators are not manufactured or distributed by Fluke Corp. or Altek Industries Inc, manufacturers of Altek Calibrators.
